

Customer Acknowledgment Statement

How It Works

1. Submit Your Requirements: Share your site details and design preferences via form or contact.
2. Expert Consultation: Our design expert will connect with you to understand your exact requirements.
3. Proposal & Planning: Based on your selected plan, we share a tailored proposal and timeline.
4. Advance Payment & Work Initiation: Upon approval and advance payment, your project is initiated.
5. Design & Development: Our team creates plans and drawings as per the selected package.
6. Revisions: Offered as per your plan. Extra revisions available at nominal charges.
7. Final Delivery: Final designs delivered digitally in high-res PDF. Physical copies or editable files on request.

Customer Responsibilities

- Provide accurate plot dimensions and relevant site details at the time of inquiry.
- Ensure all initial requirements are clearly communicated during consultation.
- Approve design stages promptly and respond to queries for timely delivery.
- Make payments on time as per the agreement.
- Refrain from using partial or draft designs for construction purposes.

Deliverables

- Floor Plans with internal layout and Vastu integration.
- Elevation Designs (2D & 3D as per plan).
- Structural Drawings including RCC & Foundation (based on plan).
- Electrical & Plumbing Drawings (as applicable).
- Material & Door-Window Schedules.
- Revisions and Video Consultations (as per package).

Important Notes

- All services are digital and will be delivered in soft copy via email or download link.
- Physical printouts or couriered documents are extra and available on request.
- Designs are prepared based on customer-provided data; any discrepancy should be informed at earliest.
- Custom requests and additional design needs outside package scope are chargeable.
